

AMI PACKET FOR GRADES 3 & 4

-If you have access to a computer, log into IXL and work on your skill plan.

(Putting login info here for students who don't have it at home)

-Choose a chapter (or more) in your Bible to read. Write down what chapter you read and write a paragraph telling what you liked about what you read.

-Practice your multiplication facts any way you like. Maybe you could use shaving cream, or your finger on a frosty window...

-Read a good book! Write down the title, the author, the main characters, and write sentences that describe what happened in the book in the beginning, through the middle, and at the end.

-Make a card and decorate it. Practice your cursive writing by writing a special note to your mom or dad.

-Study your spelling words for this week. Find a fun way--like saying each letter out loud as you bounce a ball once for each letter.

Have fun, and let me know if you have any questions!
