

- Do the following assignments for today (Tuesday).
- Do the required assignments first.
- Choose activities from the optional assignment list in order to complete the 4 hours required for today.
- Have mom or dad sign the form.
- Bring the signed form and assignments back to school when we return after the bad weather.
- Have fun and STAY SAFE and WARM!

Required Assignments

Math on IXL – If you have access to a computer, log into IXL (like yesterday), click on "Skill plans", and then click on "Math" under the heading that says "Personal NWEA MAP Growth study plan". Spend at least 30 minutes working on math (but take breaks as needed, of course).

Bible – Draw and color a cartoon strip (5 pictures or more with captions) of one of the stories we've recently studied--Joshua and the battle of Jericho, or the story of Ruth. Check out Joshua chapter 6, or the book of Ruth in your Bible to help you remember the story you decide to illustrate. We'll put these up at school when we get back.

-Practice your treasure verse. If you can, send me a video of you saying your verse!

Reading – Read a short book or chapter in a book. Do a 3,2,1 response—

Write 3 main things that happened in what you read.

Write 2 words or phrases you found interesting.

Write 1 thing you wonder about the story you read.

Science – If you can, watch this YouTube video about rocks and minerals, called "Explore Amazing Rocks and Minerals! Caitie's Classroom Field Trip" -- <https://www.YouTube.com/watch?v=nEJXaWRptQo>
We are beginning our science chapter about rocks and minerals, so bring any interesting rocks you have to school on Wednesday!

Spelling - Study your spelling words for this week. Write each word twice very neatly, using a different color for all the vowels (Remember: a, e, i, o, u).

PE - Get moving! Choose something to do:

If you have stairs, go up & down 10 times.

Listen to and move to a variety of music.

Do some exercises like sit-ups, squats, planks, jumping jacks.

Crab walk as fast as you can.

Have fun, and see you Wednesday !

Optional Assignments (if needed) to complete 4 hours

Social Studies – Research on a computer to find some winter facts that are interesting to you.

Ideas might include topics like:

- the coldest place on earth
- the average amount of snowfall in Northwest Arkansas
- what winter is like in different places around the world that you are interested in, like Australia?
- as many kinds of winter sports as you can identify
- the coldest temperature ever recorded in each of the fifty states

Write – Write a story about a winter adventure. This can be a real experience that happened to you, or a story you make up. Use lots of descriptions to make it interesting. Make sure you use sentences with capitals and end marks.

Student's name _____ Date _____

Completed at least four hours of AMI activities today, including the required assignments.

Signed _____
